

# WHY CHOOSE A STAINLESS WATER TANK

There are many advantages to Stainless Steel Tanks...

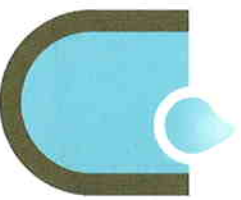

- THEY NEVER RUST
- THEY LOOK FANTASTIC
- OUR UNIQUE MANUFACTURING PROCESS MEANS NO RIVETS OR OTHER WEAK POINTS AS MAY OCCUR WITH GALVANISED TANKS
- THERE'S NO PLASTIC TASTE IF YOU'RE PLANNING ON USING THE TANK WATER FOR DRINKING
- STAINLESS TANKS WON'T DEGRADE IN SUNLIGHT (LIKE SOME POLYURETHANE TANKS CAN)
- EVERY TANK IS CUSTOM MADE TO YOUR REQUIREMENTS

In addition to these benefits, dealing with Stainless Water Tanks has added benefits.

We are locally owned and manufacture right here. This means our response time is FAST and our solutions are FLEXIBLE.

## 25 YEAR GUARANTEE

[FOR PEACE OF MIND]

STAINLESS WATER TANKS

*"What was fantastic, was that Tony was fast, advised me of the right solution and educated me about the alternatives. He then manufactured the tank, supervised the installation by his team and checked the job was done perfectly."*

Trevor Antrobus  
Spring Hill

*"Thanks for the great advice on where to install our tank, the installation went smoothly and the tank really does look fantastic."*
